Every reader of this epitaph will give a new lease to the perpetuity of it, as the fireside memory of the quaint story is revived, and again repeat it o'er and o'er for the children to take up and centinue. The facts in this narrative were incidentally gleaned from Mrs. Rebecca Harrington, nec Wigging, who was born in New Jersey, and raised near Niagara Falls, on the Canada side. Her memory is that "Old (John) Grimes" was born in Belfast, Ireland, about 1776. He was an educated man of cheerful disposition, at one time an editor in Toronto, Canada, perhaps fifty or fifty-three years ago. He subsequently engaged in the purchase of rags which he transported on a mule, and used to make his "headquarters" with one William Bigger, an uncle of the said Mrs. Harrington, who lived at Lundy's Lane, half a mile from Niagara Falls. Here Grimes would unload his merchandise, as he said, to "let the rags and mule cool off," and would sometimes stay several weeks. Soon after he began to be recognized as a regular visitor, he brought forth several copies of "The Epitaph," "Old Grimes is Dead," etc., which he said

It frees the system from all foul hamors, enriches and strengthens the blood, removes all traces

of mercurial treatment, and proves itself a A Recent Cure of Scrofulous Sores. A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swellen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used Aven's Sansaparilla, of which I have now taken three bottles, with the result that the sores are bealed, and my general health greatly improved, and my general health greatly improved. I feel very grateful for the good your medicine has done, me.

How Watch Cases are Made. In 1875, thirteen men comprised the entire working force used in the manufacture of the James Boss' Gold Watch Case. Now over free hundred are employed, and the number is constantly increasing. The reason of this increase is this: In the James Boss' Gold Watch Case, and subject to wear is solid gold, while the remainder, which only lends strength to the case, is of stronger metal than gold, giving gold where gold is needed, and strong, elastic metal where strength and elasticity are needed, a combination producing a watch case better than solid gold and at one-half the cost.

E. W. Marsh, of the Democras, bought a Jas. Bone Gold Watch case is years ago, and carried it until a short time ago, when I purchased it, and sold it to a customer. The case showed no signs of wear, except that natural to any case, and I am satisfied can be safely guaranteed for at least ten years more. I have sold the James Bose' Gold Watch Case for many years, and the parties who bought the first ones are carrying them to-day, as well satisfied as though they had bought a solid rold case costing twice the money.
